

# Do you use MYOB? Do you have FLARE?

Flare is a Human Resources (HR) platform purchased by software company MYOB in 2022. It is a stand-alone company which provides the Employee Self Onboarding process when you hire a new employee and it provides an Employee Benefit scheme within the MYOB payroll function.

The Employee Self Onboarding process is easy to use and we encourage all our clients who use MYOB to use that function when hiring new staff. It cuts admin time considerably.

But you may be more interested in the employee benefits scheme offered by FLARE. It was acquired by MYOB as a way of differentiating their product to other similar products on the market.

The employer can invite their staff to participate in the scheme. It is up to the staff member as to whether they accept the invitation or not. The employee then loads the FLARE app on their phone and they can use it to purchase a range of products.

For example, Woolworths offers a 3% discount to FALRE users. The employee purchases a \$100 gift card but it only costs them \$97. Each participating firm offers varying discounts including novated leases for savings up to \$10,000.

**Workplace benefits in your pocket!**

Download the Flare app for easy access to your workplace benefits and much more.

# How does an employer navigate/set up?

User Tab - Admin where you can add or deactivate users

The screenshot shows the MYOB Users management interface. The header includes the MYOB logo and "powered by Flare". The left sidebar has a "Users" tab selected, with links to Benefits Manager, Resource Hub, and Help & Support. The main content area is titled "Users" and shows a summary of user status: Active (16) and Deactivated (4). Below this, there is a table of users with a search bar and a dropdown menu for "Name". The first user listed is "Administrator Administrator" with the email address "antony.vidray@avca.net.au".

In the Benefits tab, you can turn on or turn off specific benefits – Admin view
